START here SEMESTER 1 - FALL CREDITS MILESTONE COMPLETED П MAT 290 — Calculus I for Engineering and Science 4 ENG 101 - English Composition I \Box CHE 151 — General Chemistry for Engineering and Science I PHY 171 - Physics for Engineering and Science I IDS 101 — and two additional IDS Electives TOTAL CREDITS SEMESTER 2 - SPRING MILESTONE COMPLETED MAT 291 - Calculus II for Engineering and Science ENG 102 — English Composition II П PHY 172 - Physics for Engineering and Science II \Box П EGR 101 - Introduction to Engineering EGR 201 - Physics of Matter - taken at UML TOTAL CREDITS SEMESTER 3 - FALL **CREDITS** MILESTONE COMPLETED MAT 292 — Calculus III for Engineering and Science ETH 101 - Ethics and Society 3 ECO 140 - Macroeconomics CAD 169 - Basic Solid Modeling 3D EGR 210 - Statics 3 П TOTAL CREDITS SEMESTER 4 - SPRING MILESTONE **CREDITS** COMPLETED 3 П MAT 298 — Differential Equations П EGR 211 - Strength of Materials П EGR 212 — Dynamics П EGR 204 - Mechanical Behavior of Materials- taken at UML Humanities Elective **

TOTAL CREDITS

You've FINISHED!

Helpful Hints

- Students must begin the Calculus sequence in semester I.
- MAT 290 Calculus I must be taken concurrently with, or prior to, PHY 171.
- MAT 291 Calculus II must be taken concurrently with, or prior to, PHY 172.
- Students begin taking reverse-transfer courses at UML during their second semester.
- Individual electives vary by engineering concentration. MCC students will take their engineering electives at UML, and receive full credit toward their associate degree through the reverse articulation agreement that is part of this program.
- Students who wish to transfer to four-year institutions other than UML upon completion of their associate degree should consult with Advising early in the program.
- Humanities Electives: ART 101, 105, 106;
 COM 103; PHL 101; ENG 113, 119, 160, 161, 185

Career and Transfer Outlook

Career opportunities are open to students who transfer and complete a bachelor's degree. Engineers design complex systems, solve technical problems, and provide supervision and leadership.
