Certificate Programs

Certificate programs can serve as the basis for further higher education or professional studies. Certificate programs require students to complete specified coursework, mainly related to particular fields of employment.

While many students enroll in a certificate program in preparation for direct entry into employment, they often return to college, part time or full time, and apply the credits previously earned to an associate degree program.

Career and Transfer Outlook

Graduates of the program who plan to seek employment in the field upon completion of their requirements should find a vibrant job market. The Northeast Regional Competitiveness Council, a collaborative workforce initiative of business, industry, education and government leaders, ranks the hospitality and tourism industry within the top three employment trade clusters in the state.

Graduates of the certificate program may elect to transfer to an associate degree or bachelor's degree program in culinary arts or hospitality management.
