TOTAL CREDITS 12

You've FINISHED!

Milestone Courses
should be taken in the order shown. This will help you stay on track and graduate on time.

General Advising Notes

- Students are encouraged to begin taking courses aimed at completing their English requirement immediately upon entering the college.
- Also, students who place into reading courses on the college placement test should complete that requirement without delay.

Certificate Programs

Certificate programs can serve as the basis for further higher education or professional studies. Certificate programs require students to complete specified coursework, mainly related to particular fields of employment.

While many students enroll in a certificate program in preparation for direct entry into employment, they often return to college, part time or full time, and apply the credits previously earned to an associate degree program.

Career and Transfer Outlook

- This certificate program prepares students for entry-level careers in the hotel, function and restaurant industry, and also assists those already in hospitality positions to upgrade their skills.
- Since coursework completed as part of the certificate fulfills many of the course requirements of the Hospitality Management Associate in Science degree program, some students continue on in a full- or part-time basis, to complete the associate degree.
