Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

Make Your Summer Matter. Summer is a great time to take some elective courses and get ahead.

## Helpful Hints

- NST courses are very sequential; students are advised to take all NST courses as prescribed for each semester. Content of the core courses is designed to logically build upon previous semesters, culminating in "Ethical Hacking" and the "Capstone" course.
- NST 181 is a prerequisite for NST 231 and NST 281.
- NST 231 is a prerequisite for ITC 201.
- NST 281 is a prerequisite for NST 282.
  - ITC 201 is a prerequisite for ITC 211.
- ETH 102 and NST 282 are prerequisite for ITC 240.
- ITC 240 must be taken prior to or concurrent with ITC 250.
- ITC 101 is a prerequisite for ITC 111.
- Students should plan on satisfying the math requirement as early as possible.

## Career and Transfer Outlook

The U.S. Department of Labor projects computer security specialists' employment to grow by 22% from 2010 to 2020. Graduates of this program will be prepared to find entry-level employment as information security analysts, or to transfer to a four-year program. Career opportunities are open to students with A.S, B.S. and advanced degrees in the secure configuration, operation and analysis of enterprise computer networks, including infrastructure devices, network services and the servers upon which they run.
