

**MASSACHUSETTS DEPARTMENT OF ELEMENTARY AND SECONDARY EDUCATION
STANDARD CONTRACT FORM AND APPLICATION FOR PROGRAM GRANTS**

PART I – GENERAL

A. APPLICANT: Middlesex Community College	<i>District Code:</i>	1	2	1	4
ADDRESS: 33 Kearney Square					
Lowell, MA 01852					
TELEPHONE: (978) 656-3843					

B. APPLICATION FOR PROGRAM FUNDING				
FUND CODE	PROGRAM NAME	PROJECT DURATION		AMOUNT REQUESTED
		FROM	TO	
FY17	STATE/FEDERAL – CONTINUATION GRANT administered by ADULT AND COMMUNITY LEARNING SERVICES			
345	Community Adult Learning Center (State)	7/1/2016	6/30/2017	\$197,737
340	Community Adult Learning Center (Federal)	9/1/2016	8/31/2017	

C. I CERTIFY THAT THE INFORMATION CONTAINED IN THIS APPLICATION IS CORRECT AND COMPLETE; THAT THE APPLICANT AGENCY HAS AUTHORIZED ME, AS ITS REPRESENTATIVE, TO FILE THIS APPLICATION; AND THAT I UNDERSTAND THAT FOR ANY FUNDS RECEIVED THROUGH THIS APPLICATION THE AGENCY AGREES TO COMPLY WITH ALL APPLICABLE STATE AND FEDERAL GRANT REQUIREMENTS COVERING BOTH THE PROGRAMMATIC AND FISCAL ADMINISTRATION OF GRANT FUNDS.

AUTHORIZED SIGNATORY:	TITLE: President
TYPED NAME: James C. Mabry, PhD	DATE: June 15, 2016

DATES DUE:
Fund Code: 345 – Wednesday, June 15, 2016
Fund Code: 340 – Friday, July 8, 2016
Proposals must be received at the Department no later than 3:00 p.m. on the date due.

Mail the proposals listed on this signature page to:

Lorraine Domigan
Office Manager
Adult and Community Learning Services
Massachusetts Department of Elementary and Secondary Education
75 Pleasant Street 3rdFloor
Malden, MA 02148-4906

Number of sets: Submit two (2) sets each with an original signature of the Superintendent / Executive Director / President.

Name of Grant Program: Community Adult Learning Center**Fund Code:** 340/345**PART III – WIOA INFORMATION and QUESTIONS**

Please respond to the following items.

A. Curriculum

1. Describe your plan for developing and using curriculum and instruction aligned to the *Massachusetts ABE Curriculum Framework for English for Speakers of Other Languages (ESOL) and/or the College and Career Readiness Standards for Adult Education* based on SABES feedback on the scope and sequence level your program submitted in August 2015.

After reviewing the feedback on our initial ELA Scope and Sequence, the entire ALC administrative and faculty teams attended the SABES CCR conference in November. We also took advantage of the opportunity to work with Andrea O'Brien, a coach referred to us by Merilee Freeman from SABES for additional guidance on how to strengthen our Scope and Sequence and further our efforts to fully align our curriculum with the CCRSAE. We also hired two experienced Scope and Sequence writers, Dianne Traynor from Middlesex Community College and Barbara Goodridge from the Abisi Adult Education Center in Lowell to collaborate with the team and further enhance our ELA and Mathematics Scope & Sequence. The guidance received from the conference and the coaches has been invaluable and we will be ready to submit our 1st levels for ELA and Mathematics in August. Our instructors will be ready to begin integrating the modified curriculum in the Fall 2016 semester. Attendance at future CCR conferences and ongoing professional development for all instructors and administrative staff continues to be a priority to ensure we are implementing aligned and appropriately rigorous curriculum to assist our students in achieving their academic and/or professional goals.

B. Integrate Math into higher level ESOL classes

1. Describe how the program addressed the math needs of ESOL students in 700 level (SPLs 6 and 7) classes in FY 16.
2. Describe how the program will address the math needs of ESOL students in 700 level (SPLs 6 and 7) classes in FY 17.

N/A to our program.

C. Administer pre- and post- assessments to ASE level students using both the MAPT for Math and the MAPT for Reading

1. Describe how the program uses assessment data from these tests to inform program improvements.

The ALC will continue the established practice of assessing students at intake with the TABE Survey to determine course placement and then proceed with the pre and post-MAPT during the semester in order to monitor educational gains. Taking into account a variety of factors (eg.: the courses the student is enrolled in, student attendance and effort, student's personal and academic history, etc.), the program uses the results of the pre and post-MAPT to monitor which students are making gains and which courses are most reliably resulting in educational gains. Results would then inform programmatic reviews of courses and/or teaching methods. Results are also used as an opportunity to continue exploration with the student regarding their goals, motivations, and academic progress. Student input and reflections then also help inform our work and shape our program.

D. Integrate Digital Literacy- WIOA references the Museum and Library Services Act of 2010, which defines digital literacy as "the skills associated with using technology to enable users to find, evaluate, organize, create, and communicate information."

1. Describe how the program integrated digital literacy to prepare students for college and careers in FY 16.

In FY16, the ALC developed a non-rates based class specifically to address College and Career Readiness skills. All students were enrolled and received soft-skills training for college and professional settings as well as digital literacy training. The websites and software introduced to the students are accessible remotely which gave the students the ability to also work outside of class as their schedules allowed. The software was also adaptable to a variety of skill levels allowing us to offer an appropriate

level of training to each student. In the fall semester, students were given personal accounts for Teknimedia to develop their Microsoft Office skills. They were also guided to other sites to practice other technical skills (eg.: typing) and soft skills (eg: e-mail etiquette) as appropriate. In the spring semester, we added Career 101 to the curriculum. Each student was given a personal account and pre-tested in the areas of Locating Information, Reading for Information, and Applied Mathematics. Students received in-class instruction as well as individual time to work through the subject areas. In addition to the “in-house” software we offer our students, our access to MCC’s Student Career Center grants us access to Focus 2 for career assessment and planning and Optimal Resume which were used individually with students as appropriate.

2. Describe how the program will expand the integration of digital literacy to prepare students for college and careers in FY 17.

We will continue to utilize Career 101 in the coming academic year. Given the students past enthusiasm and success with the program, we aim to have some students ready to take the National Career Readiness test if accessing a testing site is attainable. We will also continue to utilize Teknimedia to help our students further develop their Microsoft Office skills. We will add lessons from GCFLearnFree.org which offers free lessons in reading, mathematics, digital literacy, and college and career readiness skills. We will continue to encourage students to utilize these and other programs both in-class and at home. As our classes are on a rotating schedule for use of the computing lab, we have also invested in laptop projectors for use in all of the class-rooms to bring technology to the students even when they’re not scheduled to be in the lab.

E. EFL Completion

From the FY 14 and FY 15 Table 4 in Cognos, identify Education Functioning Levels (EFL) that need improvement and describe your plans to improve curriculum and instruction to increase EFL completion rates for your program in FY 17.

Year to year, FY ‘14 to FY ‘15, the program’s number of students completing a level improved by 5 percentage points. Low ABE remained the same, Low ASE decreased by 10%, but there was major improvement in High Intermediate with an increase of 8%, and an even better improvement in High ASE of 16%. With staff participating in STAR training in FY ‘17, and the eventual implementation of STAR in the classroom, we expect to see an improvement with the Low ASE as they are fully immersed in the STAR Reading Program.

F. Out of School Youth

Strengthening services to out of school youth (ages 16– 24) is a key WIOA priority. Describe how you will plan to serve or expand services to this population either through direct service or by collaboration with Title I Youth Programs or other WIOA partners in FY 17.

Out of School Youth continue to be a top priority for our program and we will continue to market to and collaborate with local high schools, libraries, and career centers to ensure our services are offered to those in this group seeking their HiSet, general academic and career skills, and/or referrals to partner programs. We will be working on updated promotional materials to put a fresh face on our program and further market to this population of students, their parents, and counselors.

We have a long collaborative history with two of our board members who work with this population and provide student referrals to the ALC: Shawn Daly (Coordinator of the RISE Program at Bedford High School) and Ian Edwards (Clinical Director of the Wayside Youth & Family Support Network in Waltham.) We continue to collaborate with these programs and seek input on student needs to better inform our program goals. In our discussions with Ian Edwards and through our own review of local services, we have found that the town of Waltham appears to be an underserved area. In FY16, we began reaching out to schools, libraries and service providers there and have connected with Mary Jo Rendón (Family and Community Engagement Specialist at Waltham High School) and Soledad Valenciano (Case Manager at The Mazie Mentoring Program at Waltham High School.) We will foster these relationships and begin attending community partnership meetings to further educate ourselves about the area needs and market our services to potential students and program partners.

G. Collaborate with Workforce Partners

On a quarterly basis, the workforce partner in each of the 16 regions convenes the region’s Adult Career Pathways Working Group which consists of the region’s ABE Adult Career Pathways providers, career centers, and other workforce partners. The purpose of the Adult Career Pathways Working Group is to monitor enrollment, program performance, and career development for graduates. All ABE providers are encouraged to strengthen workforce collaborations using the existing structure established by the Adult Career Pathways Working Groups. See the groups by region at this link: <http://www.doe.mass.edu/acls/acp/Programs.pdf>

Additionally, programs are asked to develop regional career pathways and prepare for meeting integrated education and training, integrated English literacy and civics education, and other WIOA requirements.

1. Describe plans to strengthen collaborations with regional workforce partners to jointly identify opportunities for employment, education, training and support services students need to succeed in the labor market. Note that WIOA includes the same opportunities for English language learners, adults with low levels of literacy, and/or individuals facing substantial cultural barriers as other populations currently being served.

The ALC is housed within the Department of Corporate and Community Education and Training and is under the guidance of Judy Burke, the division's Dean. We will continue to attend monthly staff meetings and collaborate with her department for guidance on areas where we can further our reach and involvement. The Division has also recently contracted with the Department of Transitional Assistance and we expect to see referrals to our program. In addition, we will continue developing our relationship with long-time collaborators Christopher Brennan (Executive Director of The Career Place and member of the MCC Workforce Development Council), Kathy Andre (Manager at The Career Place and ALC Board Member), Karen James (Career and Academic Counselor at the MCC Career Services office), Nancy Quinn (College and Career Navigator at MCC and ALC Board member.)

2. Describe how the program will build on past community planning efforts to establish or build collaborations with local workforce partners, such as core partners, local workforce boards, One-Stop Career Centers, employment and training programs, local employers, and other regional workforce entities as required by WIOA. Your response should address these specific questions:
 - How will you engage with core partners in your region with a focus on creating more career pathways for adult students?
 - How will you begin discussing who will be "shared customers" among core partners and how to identify them?

To expand on our long history of collaboration with the many partners listed above, Katherine Innis (ALC Director) has joined the MCC Workforce Development Council and attends bimonthly meetings to discuss potential opportunities to create educational and career pathways and better serve our collective "customer" base. Key partners of this Council include the Directors of The Career Place, Career Source, the Metro North Regional Employment Board, and Healthcare Workforce Development alongside many key players from the MCC campus. Ongoing discussions will continue to focus on each organization's agenda and target student/customer base and how we can better provide referrals and programmatic information to those seeking services. In addition to the Workforce Development Council, we will continue to collaborate with other key departments at MCC including Disability Support Services which consistently works with Massachusetts Rehabilitation Commission and the Massachusetts Commission for the Blind and provide referrals to our program.

Note:

Programs must engage in a continuous improvement planning process. This process includes identifying goals, objectives, and major activities that align with WIOA. Programs must keep the continuous improvement plan updated for FY 17 as these may be requested at any time during the program year by ACLS staff.

MCC ALC ABE 340/345 BUDGET REQUEST NARRATIVE, FY17		DESE
		Request
1. ADMINISTRATION		
Supervisor/Director	EN1006	
Katherine Innis , Director, is responsible for monitoring all aspects of the program, including fiscal, administrative, and personnel. Additionally, she provides educational leadership, maintains communication with DOE, convenes the Advisory Board, participates in all DOE trainings and activities and program and staff development activities. She is also responsible for community planning, meeting with local community organizations to promote partnership activities and ABE interests. She also convenes the Community Planning Partnership. 1100hours x \$32/hr.		35,200
Allison Norton , Educational and Career Advisor, is responsible for coordinating all intake, assessment, counseling, program development and ADA requirements. In addition, she monitors SMARTT reporting and participates in program and staff development activities. 900hours x \$32/hr.		28,800
		\$64,000
2. INSTRUCTIONAL/PROFESSIONAL STAFF		
EN5014		
The program employs 4 part-time instructors. Teacher codes #1,2 3,4 1 Beg. Literacy, 1 Low Int (STAR) , 1 High Int and 1 Adv class, 2 non-rate classes in college and career readiness skills and 4 drop-in learning centers. Teachers are responsible for teaching, prep, pre/post planning, counseling and program and staff development. 2,563 @ \$26.65 (includes additional hours for STAR training)		\$68,304
Writing Tutors 87 hours @ 27.60		\$ 2,401
Tech. Coordinator assists teachers with integrating technology into the curricula and provides technology instruction to students 100 hrs. x \$26.65/hr.		\$2,665
		\$73,370
Instructor for Leadership Development (supplemental ABE grant application) EN2166		MATCH
Substitute Pay @ \$26.65 /hr x 4hours/day x 3 days x 4 instructors + 26.65/hr x 4 x 6 for STAR		\$1,919
		\$1,919
		\$75,289
3. SUPPORT STAFF		
AN1263		
Jessica Cronin , Program Assistant provides services in general clerical tasks including: telephone contact, purchasing,		

record keeping, mailings, duplicating and maintaining budget reports. 400hrs x 19.55hr		\$7,820
Documentation specialist is responsible for entering student information into SMARTT, including assessments, goals and attendance. <i>EN2007</i>
