

STEM Starter Academy Math Competency Scholarship Application

Financial assistance in the form of a scholarship is provided to qualified students who have shown a level of competence in math indicative of their ability to be successful in college level math.

The scholarship will be offered for qualified math summer courses only. The selection process will include the following considerations:

- Level of last math course completed
- Grade of last math course completed
- Overall GPA
- Faculty recommendation
- Involvement on campus

In order to be eligible to receive the scholarship, all recipients will be required to do the following:

- Participate in a study group weekly throughout the qualified summer course
- Register to take the next in sequence college level math course for the Fall 2019 semester

Please return completed application in person to the Pathways Center, located in the Cowan Center in Room 306 by Friday, May 10, 2019.
